

Get every Medicare negotiated-price refund you're owed.

We match every claim to its manufacturer refund, find what's missing, late or wrongly denied, and recover it for you. **You pay nothing unless we recover money.**

The problem independents are living with

Since January 1, 2026, every fill of a negotiated drug (Eliquis, Jardiance, Xarelto, Farxiga, Januvia, Entresto and others) leaves you waiting on a refund from the manufacturer, often hundreds of dollars per fill.

67%

of independents wait 22+ days for refunds

78%

have trouble reconciling refunds to claims

15 more

drugs join in January 2027, incl. Ozempic & Wegovy

Refunds are also being wrongly denied as "340B" at pharmacies with no 340B contracts (reason code N907).
