

TallyRx by Practical Data Work

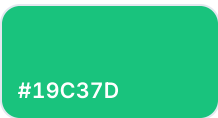

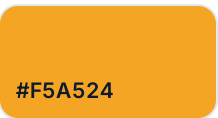

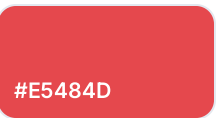

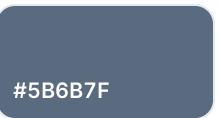

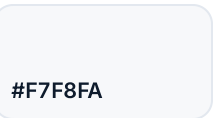

Every Medicare negotiated-price refund, tallied and recovered. The mark is a **tally** (counting every claim) crossed by a **check** (verified and paid).

Logo

Keep clear space equal to the mark's corner radius. Never recolor the check; it is always Signal Green.

Color

					
#0E1B2C	#19C37D	#F5A524	#E5484D	#5B6B7F	#F7F8FA
Ink Primary, text, dark panels	Signal Green Recovered money, positive	Amber Late, at risk	Alert Red Missing, denied	Slate Secondary text	Paper Backgrounds

Status language

Use the same chips on the website, audit reports and dashboards so owners learn them once.

HEADLINES

Space Grotesk

Bold 700 for headlines and big numbers. Tight tracking (–2%).

\$6,698 recovered

BODY

Inter

Regular and semibold for body text, tables and forms. Tabular numbers on for all figures.

We match every negotiated-drug claim to its refund and chase what's missing.

Voice: sound like

- Short, plain, numbers first: "You're owed \$6,698."
- On the owner's side, never salesy.
- Specific: drug names, days, dollars.
- Calm about compliance: "BAA first. Read-only."

Avoid

- Jargon without a translation (MTF, SDRA, RARC).
- Hype words: "revolutionary", "AI-powered".
- Promising amounts before an audit.
- Implying ties to CMS, NCPA or manufacturers.
